Busy Marie of Rumania to Visit in England at Palace

SPURNS ROYALTY

Queen Arranges Marriages and is Clever Diplomat

BY MILTON BROSNESS

LONDON-(NEA Service)-"Busy Marie," alias the "Mother-Inlaw of the Halkans." is coming to this capital in a few weeks.

Which is rather an impolite way of saying that Queen Marie of Rumanks, accompanied by her hubby, King Ferdinand, is coming to pay a state visit to the king and queen of England and to get five days' free board in Buckingham Palace. They had also counted on some free wats in Rome and Madrid but the covernments of those countries have living up the "nothing doing" sign.

Queen Marie gets her last nick name from the fact that her eldest son, Crown Prince Carol, married a Greek princess, daughter of the Lide King Tine; her daughter, Princess Elizabeth, married King George of Greece whom his loyal subjects have just enthusiastically kicked out of the country, and her daughter, Princess Marie, married the king of Jugo-Slavia WHY SHE IS CALLED

"BUSY MARIE" She gets her other title of "Butsy Marie" from the fact that wherever she goes, she not only manages to lingle the wedding bells for her offjingle the wedding bells for her off-spring, but also to sign up treaties COUSIN OF KING GEORGE

Also Her father was the Duke of Edinthe has plans for a wedding between burgh, who was offered the throne her son, Prince Nicholas and Princess Mafalda of Italy.

In the political way, she and her husband have brought Rumania into the Little Entente, the other members being Jugo-Slavia and ander II of Russia, so that she is al-Czecho-Slovakia. Her country has so a first cousin of the late Czar the trouble lies in defective insuladefensive alliance with Jugo-Slavis and another with Poland and is just concluding one with France.

CHICAGO'S FAREWELL TO WANDA STOPAI

Ten thousand morbidly curious men, women and children crowded into Chicago's "Little Poland" for the funeral of Wanda Stopa. Five thousand more waited three, four, even five hours at the cemotery just to catch a glimpse of the casket. Here is a section of the crowd that jammed the street in front of the Stopa apartment while the services were in progress. In the circle a police detail is seen keeping back the lines as the casket is being lifted into the hearse. A peanut vendor did a thriving business thru the crowd. This economic principle applies to clothes or any other commodity.

P&Q Clothes are made in a large way, by a great big organization, and sold in tremendous volume in our own 40 stores.

This magnitude of manufacturing and distribution means that we can and do produce better Styles and give greater Values than is possible for any . individual store to give.

Earl R. Leach, Managing Editor

To City Hall

Dear Officials: How about getting things in shape for awarding the Main-st paving job next Monday? We've had a week to talk about it now and it would seem to me that more time would simply be a waste. A compromise has been suggested. Wouldn't that be a happy solution?

LIMA BEANE

0 0 0 To My People

Dear Friends: I would warn you again against the use of coal oil (kerosene) in starting fires. Three of my residents have been the victims of explosions almost within a week.

There is only one way to safeguard against this danger and it is up to you to carry out the only help that can be given-suggestion. Using oil in this way is a dangerous practice and should not be followed. It may save a few minutes to dash a pint of oil into the stove and again it may send you to your grave. The saving of time isn't worth the

Dear Judge: Some of our motorists still cling to that aged and moss covered belief that they can partake freely of the moonbeam fiuld and yet drive an automobile without entangering the lives of either themselves or other motorists. You have taken a firm stand in regard to the treatment to be meted out to those who get into the toils of the law and I firmly believe your action will decrease the tendency to mix gasoline and liquor. ALL TOGETHER, SING!

Music Week Begins Today

Primitive man's first music was the twittering and whistling of birds, the singing of the wind in treetops, the rhythmic rolling of surf, the roar of the thunder and the tinkle of the brook.

All these appealed to man's emotions and to his epiritual instinct. Imitating the impressive Voice of Life, he began making music of his own.

Music is man's highest form of expression-his response to harmony, creative forces, beauty and the joy of living. Next to religion and love and affection, music is

mun's closest approach to the spiritual. In all generations it reflects the degree of civilization. A nation reveals—or betrays—itself in its music.

The musical instinct is easly swayed. It can be refined. Or it can be degenerated. Accordingly, the idea of a national Music Week appeals to us as a fine movement-an attempt to elevate the standard of song and other music, as well as bring more joy into life. This week of music begins today and continues until May 10. Such elevation is badly needed at present.

The marriage of Bolly and Nigel Bretherton proves an unhappy one. When war is or and higel is glad to enlist. He leaves Bolly under the care of Mary Furnival. Nigel is killed and Bolly marries an old sweetheart, named Robert Burham. Bolly and Robert sail for America and word comes of the sinking of their ship.

When Bigel's brother, David, calls to see Nigel's widow, Mary is abhamed to tell him of Dolly's marriage. David mistakes Bolly for his brother's wife and asks her to come to live at Red Grange with him and his aunt. David and his numt welcome Mary which he comes to Red Grange. Mary tells the aunt, Miss Varney, that nobody else here! Nigel as Mary loved him.

I heard a sound along the corridor, and I came out of my room to see what it was, and there was Pavid going down to the picture gallery. I followed him, and I found han standing in front of the portrait of Nigel, and his face-sh, you months thave said he didn't care any more if you had seen his face as I

Miss Varney rose at once. She blamed herself for her thoughtlessness "Poor child! Of course you are tired!"
She went up to the girl's room with her. She kissed her most affec-

conately as she said good night. "Sleep well, my dear, and try and believe that there is plenty of sunshine in life for you still."

Mary smiled rather quiveringly. "I'll try," she said.

But when the door had shut on Miss Varney's kindly face, she went over to the window and looked drearily out into the darkness. There was no moon and no stars, but the wind was waving the dark

branches of the trees, and sighing restlessly.

And Mary thought of the woman and child who had been driven out into that very road by the relentless hand of the Bretherton they had derened, to meet death, and a little shiver shook her.

Mary looked rueful. 'Much too good, I'm afraid. I will get up at once."

"They're bringing your breakfast up to you. The fire has been lit already, you see; it shows how soundly you slept." "It seems impossible!" Mary had been so sure that she would not be able to sleep at all, and

It seemed, somehow, a mockery to be glad that the sun shone, and that she should be here at Red Grange, when one remembered that lonely grave somewhere in France, and the horrors that were daily being enacted there.

I took my last round of Mayr's Wonderful Remedy 21/2 years ago. Since then I sleep well, eat what I want and feel fine." It is a simple, harmless preparation that removes the catarrhal mucus from the intesfinal tract and allays the inflammation which causes practically all stomach, liver and intestinal allments, including appendicitis. WASHINGTON - (Associated Press) -The senate aggiculture committee today sought from E. G. Liebold, Henry Ford's private secre-tary, an explanation of telegrams between him and James Martin Miller, who claimed to represent Ford's weekly newspaper, the Dearborn Independent in Washington.

One telegram obtained by the committee under subpoens from the Western Union Telegraph Co., quoted President Coolidge as taying he was "trying to delicer Muscle Shoals" to Ford.

Liebold told the committee he did not know of any telegrams that had heen sent by President Coolidge to Ford. ANGORA, Turkey — (Associate) Press) — Rabid Turkish Nationalsts who are anxious to rid Turkey of all foreign names and to eliminate all foreign words from the Turkish language, have struck a snag in of the old Greek name Ancyra.

As Greek words are the worst sort of red rags to fire-eating Turkish Nationalists, many of the younger leaders wanted to change the name of the capital. Tunaly Kilmi Bey, the poet, has been especially active -in the campaign for the eradication of Greek names, but less idealistic and more mature parly men apparently have a feeling that there are many really important affairs of state which should be attended to before a wholesale al-teration of names is attempted. something which may result in great confusion.

Greek names of unimportant places have been ruthlessly scropped. The Prince's Islands in the Sea of Marmora, off Constantinople, which bore the Greek names Proti, Halki and Prinkipo are now called Kinall, Bourges and Heybely. Street names also have been changed quite generally in Constantinople. In Kadikol, which lies on the opposite side of the Bosphorus from Constantinople, 21 Greek street names were altered to Turkish names.

A congress has been called which will meet in Angera to consider the purification of the Turkish lan-guage by the elimination of Arabic and Persian words with a view to making Turkish the universal means of communication for all Mohamme-

BUTTER TO DIRECT G. O. P. BATTLE

Boston Man to be Chosen as National Chairman

DESIGNATED BY COOLIDGE

Decided Upon as Successor to John T. Adams

WASHINGTON -- (Associated Press) - Republican leaders in Washington saw today in Presi dent's Coolidge designation of Wil-'am M. Butler, of Boston, as his choice for the Republican national chairmansicip an opportunity to give a running start to the party's presidential campaign.

Close political advisers of the president said this was the inclive which actuated him in making the announcement last night that But ler was his choice for the chairmanship in view of the indicated desire of John T. Adams of Iowa, the

present chairman, to retire, Mr. Coolidge has indicated to that he regar dehis nomination as assured and accordingly sees no distely after the convention.

Butler likewise regards Mr. Coolidge's nomination as assured and altho he is interested in the pri-maries yet to be held in several states, including California, he feels his pre-convention work is practically at an end. It is Mr. Coolidge's expectation that Butler, with whom be had an engagement today, will undertake immediately the preparation for the presidental compaign. METHOD OF SELECTION

The selection of Butler as national chairman will not actually be made until after the Cleveland convention. The new chairman is elected by the new national committee, begin serving a ten year sentence for The new national committee, however, in its election of a chairman, always ratifies the choice of the presidential candidate, so there is little or no doubt that Butler will be made the chairman and the cam-

Bascom Slemp, secretary to the signed by Governor General Wood. president; James W. Good, western manager: Carmi Thompon and Frank W. Stearns. He will devote his time to preparations for the contest with the Decocrats.

A corps of assistants, somewhat like the "board of strategy" which Republican National Chairman Hays had in 1920, is expected to be chosen by Butler. The retiring chairman. Adams, may be asked to sit on this body and to give the campaign Crectorate the benefit of his experimre as head of the national comwittee since Chairman Hays retired

Announcement of Mr. Coolidge's manahip removed another of the uncertainties of the Republican cam-paign. One of these uncertainties was removed a few days ago by selection of Representative Theodore E. Burton as temporary chairman of the convention. Thus, only about three things remain to be done—selection of the convention's permanent chairman, drafting of the platform and nomination of a candidate for vice president.

RICKARD ANNOUNCES DATE FOR CHAMPIONSHIP BOUT

MAY DAY GLAD DAY FOR **CUBS WHOTROUNCE REDS**

It was a "May Day," a glad day for the Chicago Cubs against the Cincinnati Reds, too much of a May day for Cincy, for both the May's were as chaff before the wind so far as stopping the Cubs hitting was concerned. The manner in which Killifer's team is playing ball these days is a reminder of the lamous Chance, Evers and Tinker days. They are stopping at nothing and all pitchers seem about the same to them. Mays and his 'subway ball" was no different than May with his fast breakers, oth pitchers were drubbed unmercifully, the Cubs slamming every kind of a ball that these two flingers were able to serve.

Dempsey-Wills Will Box In September

BY HENRY L. PARRELL

NEW YORK-(United Press)-Certain that he will get Jack Dempsey's signature on the articles, Tex Rickard proceeded Friday with plans for the Dempsey-Wills heavyweight championship fight in Jersey City, September 6.

Rickard said he had gone over the ground thoroly and had made practically all arrangements. The new law in New Jersey will permit him to charge a top price of \$25 for tickets and he wants to sell the cheapest seats at \$5.

Engineers already have drawn plans for "in reinforcement of the big pine stadium where Dempsey and Carpentler fought and work will be started as soon as the weather becomes settled.

Rickard thinks that he may br able to provide seating room for 100,000 spectators and he feels that the receipts are certain to be in excess of \$1,000,000.

While no figures were made public by Rickard, it is understood Wills will accept terms for a guarantee of \$200,000 or a guarantee of a percentage of the receipts. Dempev, no doubt, will insist upon an option of a percentage if it should bring him more than \$500,000. The talk that Dempsey might

balk thru fear of the colored chal-lenger is all bunk. The champion has allowed the opinion to circulate that he was afraid of Wills for the purpose of steaming up the fight. As a matter of fact, the fight needs little steaming as it is the outstanding bout if for no other reason than that Demipsey never has beaten him while the other challengers have shown that they cannot defeat him. Dempsey ought to win from Wills and he should have no more trouble

than he had with Firpo. It is quite certain that he can't come closer to losing the title against Wills than he did when he was fighting Firpo, and leave the ring a champion Faddy Mullins, manager of Willa said this morning that his fighter vas now training, and that he was

in fine physical condition. He needs a couple of fights to get that school's nine him on edge, however, and he will get one workout on May 12, when NIW YORK — Pal Moran, New Or- Queensborough club. NEW YORK-(Associated Press) _Stock prices displayed a firm tone at the opening of today's stock marhet on what appeared to be active buving for both accounts. Speculative sentiment undoubtedly was improved by the more encouraging tone of overnight commission house market letters. Buying orders were spread over a broad list. Sears Roeback advanced a point and Pere Marquette moved up to a new 1924 high at 48. Strength of a number of special-

ties indicated the resumption of E pool operation which probably have been inspired by the case of money lates. American Radiator advanced points, Remington Typewriter and Pressed Steel Car, General Liectric, Allied Chemical, Savage Arms, Mack Truck and Manhattan Electrical Supply moved up a point or so, the last named at a new 1924 top. U. S. Cast Iron Pipe and Davison Chemical each fell back a point on profit-taking. Foreign exchange, open**ed steady.**

Stock prices continued to move to higher ground until just before poon when a wave of profit-taking brought about slight recessions from the top prices. It was essentially a specialty market with Colorado Fuel, Fleischmann, American Smelt-ing, Gold Dust and Virginia Railnay and Power selling at their highest prices of the year. National Load jumped 51/2 points and Loos Wiles 3 1/2, while International Business Machine extended its gain to four points and General Electric

"My face was full of blackbeads which later became little pumples.

They were scattered over my face and niched and burned, and when I scratched them they became worse and left scars. I was troubled with them for about three or four months

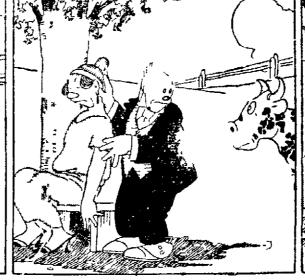

when I read an advertisement for Caticura Soap and Ointment and sent for a free cample. It helped me so I purchased more, and now I am completely healed." (Signed) Miss Esther L. Ball, Manitou Beach, Michigan.
